

## **Bradshaw Animal Shelter FAQ's During Closure:**

### **IS THE SHELTER OPEN?**

The shelter is closed to the public for most regular operations until further notice. We will issue appropriate updates as new information becomes available. However, we have implanted a call-in system for the following services:

- **Adoptions** are still taking place via a remote process. Potential adopters must call **916-875-2287 between 8:30am-5:00pm** to speak with a shelter representative. Adoptions will then be processed by appointment after speaking with a representative.
- **If your lost pet is in the shelter**, call 311. Callers will then be transferred to a shelter representative to make redemption arrangements.
- **If you would like to foster a shelter pet**, call 311. Callers will then be transferred to a shelter representative for further assistance.

### **I LOST MY PET / FOUND A STRAY PET:**

Although it's not ideal or popular, at this time we're asking the public to leave found animals in place, as they may already be close to home and found by owners. However, we are taking sick, injured, and pregnant animals, and kittens. However, please leave neonate kittens in place, as mama kitty is probably not far away, and their chances of survival are much greater if they stay with her. Neonates that truly appear to have been abandoned, which is not common, should be brought in. Check with neighbors! Lost and Found pets should be posted online on sites such as NextDoor, Craigslist and SacBee.com, and registered on [www.PetHarbor.com.com](http://www.PetHarbor.com.com). Be sure to keep ID on your pets at all times, and ensure that your contact information is updated with microchip companies and your veterinarian to increase the chances of quick reunification. ID tags can be obtained at most larger retail pet store.

### **DOES THE SHELTER NEED DONATIONS?**

The shelter is always grateful for donations of needed items such as clean towels, kitten/puppy milk replacer and feeding bottles, XXL Kong dog toys and Redbarn Naturals Food Rolls. However, there are currently no specific items needed in relation to the COVID-19 shelter closure. To help with special medical needs, monetary donations made payable to the shelter's non-profit affiliate, [I.E.A.M](http://I.E.A.M), are always appreciated.

### **CAN I STILL LICENSE MY PET?**

Yes! You can either, 1) go to [www.BradshawShelter.net](http://www.BradshawShelter.net) to register/pay, online, or, 2) mail a check to: 3839 Bradshaw Road, Sacramento, CA 95827. You will need your pet's rabies certificate showing that your pet has a current rabies vaccination. Fees are \$15 for altered pets and \$50 for unaltered pets. Proof of spay/neuter is required for the reduced license fee.

### **WHERE CAN I RECEIVE UPDATES AND RESOURCES REGARDING COVID-19?**

For updates and resources, please visit [saccounty.net/covid-19](http://saccounty.net/covid-19).
