Bradshaw Animal Shelter FAQ During Closure:

IS THE SHELTER OPEN?
No. The shelter is closed to the public for regular operations until further notice. We will issue appropriate updates as new information becomes available. However, we have implemented options for the following services:

- **Adoptions:** We are no longer processing adoptions and the adoption phone line (916-875-2287) is temporarily closed.

- **If your lost pet is in the shelter,** call 311. Callers will then be transferred to a shelter representative to make redemption arrangements.

- **Fostering:** If you are interested in being placed on a waiting list to foster small breed dogs and/or cats please complete the [online foster application](#). Please save your completed application and send it to our Foster Team at pinav@saccounty.net. To be placed on a large dog fostering waiting list, please email sacramentocountydogs@gmail.com.

I LOST MY PET / FOUND A STRAY PET:
Although it’s not ideal or popular, at this time we’re asking the public to leave found animals in place, as they may already be close to home and found by owners. However, we are taking sick and injured animals (only). Please leave kittens in place, as mama kitty is probably not far away, and their chances of survival are much greater if they stay with her. Check with neighbors! Lost and Found pets should be posted online on sites such as NextDoor, Craigslist, SacBee.com, PawBoost.com, PetFinder.com and registered on [www.PetHarbor.com](http://www.PetHarbor.com). Be sure to keep ID on your pets at all times, and ensure that your contact information is updated with microchip companies and your veterinarian to increase the chances of quick reunification. ID tags can be obtained at most larger retail pet store.

IS THE FERAL CAT RETURN TO FIELD (RTF) PROGRAM OPEN?
No. Our RTF program is closed. However, sick and injured cats will be accepted.

IS THE DOG PARK OPEN?
Yes. The Bark Park remains open until further notice. To slow the spread of COVID-19, we ask that you please practice social distancing by maintaining a distance of 6 feet between yourself and others while utilizing the park. Taking extra steps to sanitize your equipment and frequently touched items like gates and latches, and washing your hands is recommended.

DOES THE SHELTER NEED DONATIONS?
The shelter is always grateful for donations of needed items such as clean towels, kitten/puppy milk replacer and feeding bottles, XXL Kong dog toys and Redbarn Naturals Food Rolls. However, there are currently no specific items needed in relation to
the COVID-19 shelter closure. To help with special medical needs, monetary donations made payable to the shelter’s non-profit affiliate, T.E.A.M., are always appreciated.

**CAN I STILL LICENSE MY PET?**
Yes! You can either, 1) go to www.BradshawShelter.net to register/pay, online, or, 2) mail a check to: 3839 Bradshaw Road, Sacramento, CA 95827. You will need your pet’s rabies certificate showing that your pet has a current rabies vaccination. However, if you are unable to provide proof of a current rabies vaccination at this time, please pay your licensing fees online or via mail and we will issue a temporary/provisional license indicating the fee has been paid but a rabies vaccine is due. Fees are $15 for altered pets and $50 for unaltered pets. Proof of spay/neuter is required for the reduced license fee.

**WHERE CAN I RECEIVE UPDATES AND RESOURCES REGARDING COVID-19?**
For updates and resources, please visit saccounty.net/covid-19.
